SO/ VIENNA – THE LIVING DREAMSCAPE

ABOUT

SO/ Vienna is so lively, expressive and filled with energy, that even experienced travelers are fascinated every time again. With its playful, but also consciously rebellious interpretation of luxury, this hotel sees itself as a dazzling addition to the local scene: It counts Avantgarde Design, sense for current trends, sceney beats, an impressive view over Vienna, exquisite kitchen, as well as the wellness area in our Spa with steam room and fitness center to the “Just Say SO” service.

ABOUT

Not far from the lively banks of the Donaukanal stands the SO/ Vienna. A gate to the trendy Praterstrasse, a lifeline/artery for art, fashion and design in Vienna's 2nd District. Where boutiques, hip restaurants and cafés invite you to linger.

A hotel, that surprises with contemporary and entertaining experiences and captures the genuine atmosphere of its destination. The main railway-station is approx. 7 km away, the airport 19 km.

A NEW ERA HAS BEGUN

January 8th was the launch of a thorough renovation of all 182 rooms and of the hotel lobby. The white-grey-black shading concept designed in 2010 by star architect JEAN NOUVEL has been gently transformed. Guided by the influence of the successful Viennese architect GREGOR EICHINGER, various themes from Vienna's history have been taken up, newly interpreted and carefully incorporated into the existing atmosphere.

You can expect something exciting ...

When rebellious imperial glamour meets a pulsating outlook on life.
