

COOL DESIGN MEETS EDGY STYLE

Casual chic and modern design with the typical « cheeky » style of Berlin: . With more than 377 rooms and suites, 18 conference rooms, the newly conceptualized restaurant BLEND berlin kitchen & bar as well as a modernized Fit and Spa Lounge combines avant-garde interior design with simple functionality. Ideally located in the heart of Berlin, the most important sights and places like the famous shopping area « Kurfürstendamm » as well as the « Zoologischer Garten » are only a few steps away.

The Pullman Berlin was redesigned by the prestigious Sundukovy Sisters Studio from Moskau. Reflecting their unique style, the new interior concept appears discreet and individual at the same time, edgy but attractive. Besides elements of the « Bauhaus » style, Irina and Olga Sundukovy were inspired by the surroundings of the hotel. Accordingly, the hotel facilities expose several hints to the adjacent city zoo « Zoologischer Garten » such as the 7-metre-high giraffe standing in the entrance area of the hotel.

This luminous giraffe is not the only ZOO objet d'art. A big zebra in the restaurant consisting of Bauhaus ornaments, blinking fishes swimming around the columns and rising to level 2, footprints of animals and the fitted carpet with zebra stripes print – all this could appear only in Pullman Berlin Schweizerhof. The strict geometry of Bauhaus shapes is supplemented by expensive materials: leather, copper, marble, onyx adding to the aesthetics and coziness of the hotel, which is interesting to come to and pleasant to stay in the bar or have dinner in the BLEND restaurant.

With the Artist Playground the hotel collaborates with artists and designers from Berlin and all over the world to bring their vision of design to life. The Pullman Artist Playground is a small and innovative art corner which blends elements of local interest, cultural intrigue and visual ingenuity – creating new timeless experiences for our guests. The exhibition changes every 3 months.

As the uncontested reference in upscale meetings, Pullman understands that successful meetings thrive on creative impulses. In collaboration with Mathieu Lehanneur, we've created Business Playground by Pullman, a place at the intersection of work and leisure. A playground for the imagination, where work becomes an inspiring experience. Inspired by grand casinos, the conference table becomes the Pullman Poker Table – compelling you to touch it, inviting you to participate. Pullman Curiosity Boxes feed brainstorming sessions and inspire creative solutions. The Canopy Break Zone offers participants space to breathe, to relax and re-energize between meetings. The best meetings are unique. In the inspiring environment of Business Playground by Pullman in Berlin, they become unforgettable.

Our world is your playground.
